- I do not have any potential conflict of interest

Endovascular Guide Wire Introductions

- Early history driven by coronary market with product leveraging into endovascular space
- Hi-Torque Command™ Guide Wire was the first .014" dedicated as an endovascular wire, without a predicate in coronary space
- Hybrid technology provided unique benefits necessary in endovascular space
- Hi-Torque Command™ 18 Guide Wire was the second purpose built endovascular wire and incorporated physician feedback from Hi-Torque Command™ Guide Wire

Abbott

CAUTION: This product is intended for use by or under the direction of a physician. Prior to use, reference the Instructions for Use, inside the product carton (when available) or at vascular.eifu.abbott or at medical.abbott/manuals for more detailed information on Indications, Contraindications, Warnings, Precautions and Adverse Events.

Information contained herein for DISTRIBUTION in Europe, Middle East and Africa ONLY. Check the regulatory status of the device in areas where CE marking is not the regulation in force. Not intended for physicians from France.
